

Cisco Secure Workload (CSW) MINT Service Pricing

Majentai is an authorized Cisco integrator with hundreds of successful Cisco Secure Workload deployments across enterprise environments. Our MINT (Managed Integration and Ongoing Services) bundles simplify procurement and accelerate time to value by packaging the core services most organizations need during CSW adoption. Each bundle includes implementation, policy enforcement, native integrations, and ongoing technical support scaled to your workload requirements. Add the SKU to your Cisco quote, select your tier based on workload count and application complexity, and activate expert services that keep your zero-trust segmentation running smoothly from day one.
